Film Synopsis: A woman is suspected of murder after her husband's death; their half-blind son faces a moral dilemma as the main witness.

Presentation: Graciela Abelin and Carolyn Ratner-Fitzgerald will each give a brief discussion of the movie, followed by an open conversation with the audience. The film explores the complexity, nuance, intimacies, and mysteries of a marriage – can an outsider, whether clinician, journalist or judge, ever

fully understand the turbulent life of any marriage? The discussion will focus on the affective undercurrents in modern-day couples with unequal professional development as the film depicts, when a woman's career success outstrips that of her spouse.

We look forward to your participation.

Format of the Program:

The workshop will be on Zoom to allow participants to safely attend and provides access to participants who reside outside of the DC-Maryland-Virginia area. Closed captions will be available to make this workshop accessible to the deaf and hard of hearing community.
